A gentleman who is fond of horses attended church recently where there is a somewhat prolonged service before they come to the sermon. "How were you pleased with the services?" asked a friend. "Oh, very much, though it did strike me that there was a good deal of scoring before they got off."

Jas. Nebro, who drove the winners Raven Boy, Nellie B and Fred Niel at our summer meeting, was driving Consul, 2:22, when count is given by the Spirit of the burial of Clyde, English & Norman the horse: An impressive ceremony was the burial of the trotting stallion Consul at the St. Joseph, Mo,, race track. At six o'clock in the evening the remains were encased in a handsome box, and borne on a draped wagon to the grave within the course. Behind the funeral car walked thirty horses, each one led by his driver. About the neck of each animal was hung a band of crape, from which depended a boquet. The drivers were dressed in solemn black, each man carrying his riding cap draped with crape. After the horses walked the officers and members of the association. After the remains were deposited in the grave, the horses were formed in a circle about it, facing inward. Each horse was then led to the edge of the grave, while his driver removed the boquet and cast it in the grave. The flowers having been deposited, the grave was filled with earth, and the witnesses silent-

ly withdrew. There may be those who would scoff against and White missed their wathes, which had engaged in the Pacific Express office at dumb creature, but we esteem the sentiments | incoln. Neb., for an illustrated pamphlet of those who thus honored a noble animal. The horse possesses more than mere instinct. Indeed he shows mental qualities which place him at the very apex of the brute creation. Some sole minds have argued that he possesses a soul It is a rational idea, surely.

FAIR EXAMPLES. (The following cases were received for treatment by Dr. Keck at her various branch offices, were seen per onally once in about two months, and their treatment

tirected by letter in the meantime:) A WONDERFUL CASE.

Sharon Center, Johnson Co., Iowa, May 18, '87.

To the Public: No language can describe the distressing condition I was in at the time I commenced the use of Dr. Mrs. Keck's medicines. Having been ill a number of years, and tried in vain different medicines, as well as having paid out a great deal of money to many doctors, with little or no benefit, I was finally induced to consuit Dr. Mrs. Keck, and at that time was suffering with catarrh in its worst form, it affecting my eyes so I could hardly see; severe headache at back of neck, extending up the chords of forehead, great heat on top of head; some times I felt as if I would lose my mind. I had bronchitis and my lungs were in a bad condition, having severe pains through them; tubercles had formed on them. I had a bad cough and raised a large quantity of thick yellow matter; I had palpitation of the heart, and was very nervous, slept but little, very poor strength and no appetite, could scarcely get around, feet and limbs swelled; also had female trouble and monthlies scant. In fact, I felt I was diseased all over and had not much hope of living very long; but Dr. Mrs. Keck said she could cure me if I would mind her. So on the loth day of July, 1885, I commenced to take her treatment, and in a short time I began to improve. I followed her instructions and used her medicines ten months, when she pronounced me cured, which was remarkable in the condition she found me in. To her treatment I owe my life and health, which I am very thankfur for. I would recommend Dr. Mrs. Keck to all that are afflicted with old chronic diseases of any kind. To-day I sm stronger and healthler than I have hear for 28 cars. A WONDERFUL CASE.

of any kind. To-day I sm stronger and healthier than I have been for 35 years. Thus far I have had no symp-toms of a return of my old trouble. Your grateful friend, MRS. WM. GARVER. A REMARKABLE CURE.

A REMARKABLE CURE.

To the Public: I had a stroke of paralysis August 12, 1885, which paralyzed the left side of my face, causing my left eye to stand open, and my mount to tarn to the right side. I was in great palu, suffering with paralytical pains all through my whole system. I applied to our best physician, with whom I continued treatment for five weeks. I was growing worse and falling day by day. My physicians told me that I could not be cured—that I would soon have another stroke, which would cause death. I was unable to ride out, but sent my daughter to Webster City, to telegraph to Council Bluffs for a certain doctor. She learned that he had left that city, however, and she then consulted an old friend as to what was best to do, who advised her to apply to Dr. Mrs. Keck, who had just returned to her branch office at the Wilson House, Webster City, Iowa, Mrs Keck told my daughter it was a hopeless case, and wished to know why I did not apply to home physicians, whereupon my daughter told her what I have above stated. The doctor then replied that if my daughter would follow closely the directions, she would treat me. From the first dose I ever took of her medicines I began to feel better, and could see myself imyroving. Two months later I took cold by exposing myself, which brought me to my bed dive times worse than ever b fore. This brought Dr. Keck to my bedside, which was the first time she had ever seen me, although she had treated me two months. The neighbors all said, "If Dr. Mrs. Keck could raise me she could raise the dead." She raised me, and to-day, after six months treatment, I am able to do some work, oversee all the work on the farm, and, with the exception of being a little weak after such a siege of six ness, to side will save you if you follow her directions. Myself and family extend our hear felt thanks to Dr. Mrs. Keck for the good she has done me. W. H. ROWLEY.

For further particulars write me and 1 will answer all correspondence, at my home in Danscombe, Webster county, Iowa.

GAINED FORTY POUNDS. Mr. Vernon, Iowa, Dec 19, 1887.

Dr. Mrs. Keck—Dear Madam: I wish to state that I am still strong and well since you cured me of asthma, from which I suffered for many years. At times I could not lie down for several nights. It seemed I could never get my breath again. I was very thin in fiesh and my langs were diseased. I coughed and raised a great deal, My heart troubled me very badly. I suffered very much with catarrh, and could not smell or taste anything. In fact, I was so miserable we did not think I ever could recover. After I began your treatment I seemed to get worse for a time, as you said I would, but by following your advice and taking your medicines correctly, you cured me. And now I am able to work hard every day, and have been since you pronounced me well, which was six years ago. I have never had any return of the asthma or catarrh, although exposed to severe coids very often, and my sense of smell and taste is now good. I will come to see you at Cedar Rapids and bring with me some of my friends who need your ald. I now weigh 160 pounds, a gain of 40 pounds since my illness. Yours with respect.

MRS, MARY MARTZ.

GLAD PARENTS-RESTORED HIS CHILD.

GLAD PARENTS-RESTORED HIS CHILD.

From Quincy Journal: Chestnut street, between 11th and 12th, Quincy, Ill., Sept. 30th, 1886—I took my little four-year-old son to Mrs. Dr. Keck for treatment in May last, and she has greatly benefited him. He had been having nervous fits ever since he was a babe, from which he was unconscious at times, turning bine, and we thought he would die. His mind was not right, as he had never learned to talk the least bit, and acted very foolish at times, and at other times was very irritable, his temper being so bad we could not control him. Now he is fast learning to talk, and acts like other children. His mind is seveloping nucely. He never has any more fits now and looks stroke and well. I had him treated by several of the best physicians in Quincy before going to Dr. Keck, but without benefits. Respectfully, CHRISTIAN GENGEN BECKER.

TRAVELING DID NOT HELP!

Will be given to the first person who hands inta our store, by Dec. 31st, 1887, the correct solution of this puzzle, written in the least number of words.

Each solution to be signed and sealed before being sent in.

When you call to deliver your solution of the above puzzle, please take a look at our immense stock of FALL CLOTHING for men, youths and children.

TRAVELING DID NOT HELP!

PALMYRA Mo., Oct. 1, 1887.

To the Public: I had poor health for eight years. Was a great sufferer from heart disease; also, it my shounders and chest, and in fact all over me, so I could not bear them without a plaster. I had difficulty in breathing, I could not work much, and for months not at all. I did not work much, and for months not at all. I did not work much, and for months not at all. I did not weat in day time, even when exercising, but had weakening night-sweats. I had three doctors, and had traveled for my health, spending some months at Pueblo and Colorado Springs, but I only grew worse until I employed Dr. Mrs. Keck. Under her treatment I have been greatly benefited. My night-sweats were soon overcome, and this summer I could sweat naturally when I exercised, the first for many years. My palse are gone, the lump is all gone, and I am able to work. In fact, I feel well. Mrs. keck has done fat more than I expected, after I had trust elessware for eight years and was discouraged. I take pleasure in highly recommending her.

W. S. Johnson.

No Charge for Consultation and Advice.

If you are unable to consult the Doctor personally write to her for advice and send for circular of testi monials from excellent people well known throughou
